

WrenchHub

The Uber for Car Repairs & Maintenance

A marketplace connecting car owners with mechanics through competitive bidding and direct discovery. Better prices. Trusted professionals. Total transparency.

What Is WrenchHub?

WrenchHub is a two-sided marketplace that eliminates the hassle of finding affordable, reliable auto repair. Car owners post what they need and mechanics compete to offer the best price — or car owners browse verified local mechanics and reach out directly. No more calling around for quotes. No more guessing who to trust.

How It Works

Car Owners

1

Post a Job

Describe what your car needs. Upload photos. AI helps if you're unsure what's wrong.

2

Get Competitive Bids

Local mechanics submit sealed bids with full price breakdowns — parts, labor, and fees.

3

Pick Your Mechanic

Compare bids, ratings, reviews, distance, and certifications. Message mechanics with questions.

4

Get It Fixed

Accept a bid, schedule the work, and leave a review when it's done.

Mechanics

1

Create Your Profile

Showcase your shop or mobile service with photos, certifications, and specialties.

2

Find Local Jobs

Browse a feed of nearby repair and maintenance jobs filtered to your specialties.

3

Submit Bids

Compete on price and quality with detailed quotes car owners can trust.

4

Build Your Reputation

Earn reviews and ratings. Get verified to stand out from the competition.

What Makes WrenchHub Different

Feature	Traditional Way	WrenchHub
Getting Quotes	Call 5+ shops, explain the problem each time	Post once, get multiple competitive bids
Comparing Prices	No easy way to compare	Side-by-side bids with full breakdowns
Finding a Mechanic	Google/Yelp, hope for the best	Verified mechanics filtered by specialty & ratings
Trust	Word of mouth only	Verified profiles, reviews, certifications
Convenience	Drive to the shop	Mobile mechanics come to you
For Mechanics	Wait for walk-in customers	Proactively find jobs and grow your business

Two Ways to Connect

Mode 1

Job Bidding

Post a job describing what you need. Mechanics compete with sealed bids. Pick the best offer based on price, ratings, and reviews. Perfect when you want competitive pricing and multiple options.

Mode 2

Browse & Contact

Search for mechanics by specialty, location, and ratings. View their full profile and reach out directly via messaging. Perfect when you know what you need and want to find the right person fast.

Mechanic Verification

Standard

Any mechanic can sign up and start connecting with customers immediately. Low barrier to entry means more options for car owners.

Verified

Mechanics who submit business license, insurance, and certifications earn a Verified badge. Higher ranking in search results and more trust from car owners.

Mobile & Shop Mechanics

Car owners choose the service style that works for them.

Mobile Mechanic

They come to your home, office, or wherever your car is

Shop-Based

Bring your car to their location for the repair

No Preference

See all available mechanics regardless of service type

Revenue Model

Mechanic Subscriptions

Free tier with limited bids. Pro tier (\$29-49/mo) unlocks unlimited bids, featured placement, analytics, and early access to new jobs.

Advertising

Non-intrusive, relevant ads from auto parts stores, dealerships, and insurance companies shown to car owners.

Free for Car Owners

Always. No fees, no subscriptions, no paywalls. Posting jobs, browsing, and messaging are completely free.

Launch Market

Starting in South Florida

Building density locally, proving the concept, then expanding.

Miami-Dade

Broward

West Palm Beach

Roadmap

Phase 1 — MVP

Web App Launch

- Job posting with AI assistance
- Sealed bidding with price breakdowns
- Browse mechanics directory
- Messaging with photo sharing
- Reviews & ratings
- Mechanic verification

Phase 2 — Growth

Mobile + Monetization

- iOS & Android apps
- Pro tier subscriptions
- Ads integration
- Push notifications

- Mechanic analytics dashboard
- In-app payments

WrenchHub

The smarter way to get your car fixed.
